Pennant Size and length _____

Upon placement of my mooring, I agree to abide by all marine regulations and maintain my mooring in accord with the Town of Trenton harbor ordinance.

Signed: _____ Date: _____

MOORING SPECIFICATIONS

The following general regulations shall govern the setting and maintaining of all moorings:

- a. The Harbormaster may require heavier mooring gear at his discretion.
- b. Every mooring shall carry the number assigned to it at the time of registration.
- c. Floating rope on any mooring is prohibited.
- d. All moorings shall carry an approved float from May 15 to October 1. Poles may be used if the mooring is used year round. Seasonal pole use requires permission of the Harbor Master.
- e. From May 15 to October 1, for rock moorings, mooring scope shall be equal to the depth of the water at mean low tide + 15 feet multiplied by 2 from the rock to the bow of the boat. From October 1 to May 15, pennants may be lengthened, provided such action does not interfere with nearby moorings. Mushroom anchor moorings shall have a 3 to 1 scope measured at high tide.

- g. The following shall be the minimum specifications for all new moorings and

Replacement moorings in all Harbors and Mooring Areas except as otherwise provided or individually specified by the Harbormaster.

Boat Length	Mushroom (lbs)	Rock Size (lbs)	Bottom chain	Top chain	Nylon
Less than 20'	100	500-1000	1/2"	1/2"	5/8"
20-25'	150-200	1,500-2,000	3/4"	1/2"	5/8"
25-30'	250-300	2,000-3,000	3/4"	1/2"	3/4"
30-40'	300-400	3,000-4,500	1"	5/8"	1"
50-60'	TBD	4,500-6,000	1"	5/8"	1"
60' and over		6,000-TBD	1"	5/8"	1"
